How to remember your network, a network you have invested in!

And how to remember the relations between them – in a long term perspective.

Final remarks:

- **Be patient - look around you - understand where you are - and the culture**
- **Spend time in China**
- **Find the right partners**
- **Build, organize and maintain your networks - over time**
- **Be a world-citizen.**
- **There is a lot of protocols but in the end - be yourself**
- **Learn proper English attend discussions**

Thank you:

We have a strategy
- it`s called doing things
